## **Application as Transport Manager**

Dear Ladies and Gentlemen

For the open position as Transport Manager, I apply with great interest.

The opportunity presented in this listing is very interesting, and I believe that my experience and education will make me a competitive candidate for this position.

Currently I m working for EBL Trans, in the Department of Transport & Financial Services in the employment relationship and like the independent work and contact to international customers.

Some of my strengths, together with the expertise in sales and dispatch, are flexibility, assertiveness, structured and networked thinking.

In attachment I send you my curriculum vitae and I'm on your disposal for further information. I look forward to speaking with you about this employment opportunity to get more information about the interesting job.

Yours faithfully

Andrea Manga
